ABOUT US

The company Karo is located in the Pomeranian Voivodeship in the district of Bytów, in the municipality of Lipnica. The company has been in existence since 1994 and currently employs around 200 people. From the beginning of the company's existence, we have been producing widely understood garden accessories. In the range of our products you will find various types of fences, trellis, rollborders, borders, stakes, tiles, flowerpots and other ranges. We sell our products all over Europe – in the amount of about 1500 trucks of the finished product per year. Export accounts for 90% of the company's total production.

In 2007 we built a new plant, which significantly increased our production capacity. We possess modern technological lines and wood processing machines. Our products are characterized by a very high quality in terms of production and impregnation. We also sell high quality pine bark, packed in 80-litre bags and loose in different denominations. Due to care for high quality and durability, all our products are pressure-impregnated, with the use of a chrome free ecological agent in our own modern autoclave. The wood used for production comes mainly from FSC®-certified suppliers. Since 2013 we are also PEFC TM certified.

We are a creative company, open to the current market needs. We focus on developing and continuously improving our products to better meet the needs of our customers. We are happy to take their opinions into account and introduce new products into production.

INTERNATIONAL TRANSPORT

We provide services of international transport. Our capabilities include transport of goods with maximum payload of 24 000 kg as well as transit of dangerous goods, for which we have ADR permits. Our cars meet the European ecological standards EURO 6 and are adequately equipped for the transport of goods: trailers' body with DIN EN 12642 Code XL certificate, clean and dry surface, fastening belts, corners, non-slip mats. Our fleet is also equipped with particular trailer for paper transportation. Karo ensures fast and timely execution of accepted transport orders.

FOREST AND CONTAINERS TRANSPORT

We offer container as well as timber transportation services.

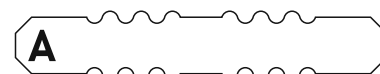

STRAIGHT GROOVED FENCES
